How to do pump sizing by application | Grundfos

Sump Pump Applications. Sump pumps are used for the clearer drain tile and rainwater runoff applications. They are normally very small pumps. Price seems to dictate this market. If a better pump construction is desired, move to the effluent style pump. Sump pumps typically handle little or no solids. They are limited to 3/8" to 1/2" solids. These pumps cannot be used for the wastewater applications mentioned above. Grinder Pumps
